

# DIGIPASS®: client e-signature software

**DIGIPASS combines a complete set of e-signature and user authentication functionality on a wide variety of platforms**

DIGIPASS is the client component (or element) of the "Full Option All Terrain Authentication" product strategy. Today the DIGIPASS product suite consists of three distinct groups: DIGIPASS Software, DIGIPASS Hardware and DIGIPASS Reader.

<p><b>DIGIPASS for Web</b></p>  <ul style="list-style-type: none"> <li>Fully Browser based</li> <li>No client software installation, no hardware deployment</li> <li>Virtual keypad</li> <li>Multi-factor authentication</li> <li>E-signature and One Time Password</li> </ul>	<p><b>DIGIPASS 260</b></p>  <ul style="list-style-type: none"> <li>Keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>Up to 3 different applications</li> <li>E-signature and One Time Password</li> <li>Scratch resistant customization</li> </ul>
<p><b>DIGIPASS for Windows</b></p>  <ul style="list-style-type: none"> <li>Client based authentication</li> <li>E-signature and One Time Password</li> <li>Optionally combined with hardware (Go-3, SmartCard...)</li> </ul>	<p><b>DIGIPASS 300</b></p>  <ul style="list-style-type: none"> <li>Keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>Up to 3 different applications</li> <li>E-signature and One Time Password</li> </ul>
<p><b>DP for Mobile Phone</b></p>  <ul style="list-style-type: none"> <li>Java based</li> <li>E-signature and One Time Password</li> <li>On-line activation</li> <li>No need for additional hardware as already deployed phone or Blackberry is used</li> <li>No need for network coverage to use it</li> </ul>	<p><b>DIGIPASS 300CV</b></p>  <ul style="list-style-type: none"> <li>Voice enabled keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>Up to 3 different applications</li> <li>Multi- language support</li> <li>E-signature and One Time Password</li> </ul>
<p><b>Virtual DIGIPASS</b></p>  <ul style="list-style-type: none"> <li>Server based authentication</li> <li>No client software installation</li> <li>One Time Password</li> <li>Server based E-signature</li> <li>No need for additional hardware deployment</li> </ul>	<p><b>DIGIPASS 550</b></p>  <ul style="list-style-type: none"> <li>Keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>4 x 2 different applications (I &amp; S button)</li> <li>4 user interface language support</li> <li>Alternative character sets (Spanish, ...)</li> <li>Alpha-numeric input</li> <li>E-signature and One Time Password</li> </ul>
<p><b>DIGIPASS 250</b></p>  <ul style="list-style-type: none"> <li>Keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>Up to 3 different applications</li> <li>E-signature and One Time Password</li> </ul>	<p><b>DIGIPASS 560</b></p>  <ul style="list-style-type: none"> <li>Keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>4 x 2 different applications (I &amp; S button)</li> <li>4 user interface language support</li> <li>Alternative character sets (Spanish, ...)</li> <li>Alpha-numeric input</li> <li>E-signature and One Time Password</li> </ul>
<p><b>DIGIPASS Go-1</b></p>  <ul style="list-style-type: none"> <li>One button device</li> <li>Pin protected (Software)</li> <li>Time and Event based One Time Password</li> <li>Optionally software E-signature</li> </ul>	<p><b>DIGIPASS Go 5</b></p>  <ul style="list-style-type: none"> <li>One button device</li> <li>Pin protected (Software)</li> <li>Time and Event based One Time Password</li> <li>Optionally software E-signature</li> </ul>
<p><b>DIGIPASS Go-3</b></p>  <ul style="list-style-type: none"> <li>One button device</li> <li>Pin protected (Software)</li> <li>Small, light and convenient</li> <li>Time and Event based One Time Password</li> <li>Optionally software E-signature</li> </ul>	<p><b>DIGIPASS Go 6</b></p>  <ul style="list-style-type: none"> <li>One button device</li> <li>Pin protected (Software)</li> <li>Time and Event based One Time Password</li> <li>Optionally software based E-signature</li> </ul>

<b>DIGIPASS 580</b> 	<ul style="list-style-type: none"> <li>Keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>4 x 2 different applications (I &amp; S button)</li> <li>4 user interface language support</li> <li>High resolution character sets (Asian, ...)</li> <li>Alpha-numeric input</li> <li>E-signature and One Time Password</li> </ul>
<b>DIGIPASS 585</b> 	<ul style="list-style-type: none"> <li>Keypad hardware device + one button touch</li> <li>Pin protected (local device verification)</li> <li>4 x 2 different applications (I &amp; S button)</li> <li>4 user interface language support</li> <li>High resolution character sets (Asian, ...)</li> <li>Alpha-numeric input</li> <li>E-signature and One Time Password</li> </ul>
<b>DIGIPASS 700</b> 	<ul style="list-style-type: none"> <li>Keypad hardware device</li> <li>Pin protected (local device verification)</li> <li>up to 8 different applications</li> <li>offers sophisticated strong authentication services with extended digital signature capability</li> <li>E-signature and One Time Password</li> </ul>
<b>DIGIPASS 800</b> 	<ul style="list-style-type: none"> <li>Unconnected keypad reader</li> <li>Fully customizable (hardware and software)</li> <li>Smart card based</li> <li>Multiple applications</li> <li>E-signature and One Time Password</li> </ul>
<b>DIGIPASS 805</b> 	<ul style="list-style-type: none"> <li>Unconnected one button reader</li> <li>Fully customizable (hardware and software)</li> <li>Smart card based</li> <li>Multiple applications</li> <li>E-signature and One Time Password</li> </ul>
<b>DIGIPASS 810</b> 	<ul style="list-style-type: none"> <li>Unconnected keypad reader</li> <li>Fully customizable (hardware and software)</li> <li>Smart card based</li> <li>Multiple applications</li> <li>E-signature and One Time Password</li> </ul>
<b>DIGIPASS 815</b> 	<ul style="list-style-type: none"> <li>Unconnected keypad reader</li> <li>Fully customizable (hardware and software)</li> <li>Smart card based</li> <li>Multiple applications</li> <li>E-signature and One Time Password</li> </ul>
