

## Introducing the Firebox® X Edge e-Series UTM Bundle Total Security. Great Price.

Network security vulnerabilities plague businesses of every size. But for small companies, a fully integrated security solution has been too complex and expensive to implement – until now. Introducing the Firebox X Edge e-Series UTM Bundle from WatchGuard, with everything a small business or remote office needs for robust, multi-layered security, including expert guidance and support, in one convenient package. Each bundle supplies:

- ✓ Firewall
- ✓ Branch Office VPN
- ✓ Mobile User VPN
- ✓ Anti-spyware
- ✓ Anti-virus
- ✓ URL filtering
- ✓ Intrusion prevention
- ✓ Anti-spam
- ✓ Expert guidance & support

### Inside the Firebox X Edge e-Series UTM Bundle

The Edge bundle makes it easy for your small business to have a fully integrated network security solution backed by WatchGuard's award-winning support service. This bundle includes:

#### Unified Threat Management Appliance

Firebox X Edge e-Series firewall/VPN has robust proxy technologies for zero day attack prevention integrated with powerful content-based security capabilities. Each model comes in wired and wireless models to meet your specific network requirements. The bundle is available for the X20e, X20e-W, X55e, and X55e-W.

#### Gateway AntiVirus/Intrusion Prevention Service\*

Working in tandem with the Edge's built-in zero day attack prevention, this service provides up-to-the-minute signature-based protection from known viruses, trojans, spyware, buffer overflows, and SQL injections.

#### spamBlocker\*

Best service in the industry at distinguishing legitimate communications from spam outbreaks in real time, blocking up to 97% of unwanted email regardless of the content, format, or language of the message.

#### WebBlocker\*

Increase productivity, prevent legal liabilities, and decrease security risks by blocking access to malicious or inappropriate. Web content and managing your users' Web surfing.

#### LiveSecurity Service\*

WatchGuard's ground-breaking support and maintenance program provides security threat alerts, expert technical support, software updates, advance hardware replacement, training, and self-help resources.

\*One-year renewable subscription

Purchase one bundle and get the works. It's that simple – no additional fees, integration, contracts, or hardware purchases. It's the easiest way to comprehensively protect your small business network from multi-faceted threats.
